Audi A4 2002-2003 all cars have Symphony II (only says symphony) in dash 6 disc CD changer radio without sat button-Does not disable the in dash cassette player or the in dash 6 CD player.-The CD changer in the trunk is connected to a cable that connects to the back of the radio. When you connect this unit it disconnects the CD changer in the trunk.

Hello, I need some guidance with my 2002 Audi A4. I swapped out the Stock symphony II radio with a symphony II+ and a proper wiring harness to convert the wiring. Everything works like it is suppose to with the exception that radio does not turn off when you shut off the car even after an hour passes. What should I do to try and fix this issue?

Manual. Standard/Bose and other configuration modes
You can program the Symphony II radio to use either the standard or the Bose equalization setting, as well as a few other basic configurations. This requires the use of a VAG-1551, VAG-1552 or equivalent scan tool (See VAG -COM or ProDiag).
