use curbs or curbs with gutters adjacent to the highway travel lanes or shoulders (when present) to provide separation of pedestrians from the traffic flow.

Roadside Design Guide 2011 - ditkeerwel.nl

Foremost of the Roadside Design Guide principles is the forgiving roadside concept, which holds that "Regardless of the reason for a vehicle leaving the roadway, a roadside environment free of fixed objects with stable, flattened slopes enhances the opportunity for reducing crash severity." A critical step in translating the forgiving roadside concept to practical guidance was the ...
