Orthognathic surgery and rhinoplasty.

# Read Book Aesthetic Plastic Surgery Rhinoplasty

Although it is well-understood that the lower two-thirds of the craniofacial skeleton significantly define one's facial appearance, the jaws and the nose are frequently treated as separate entities. This new book skillfully treats the jaws and nose as essential to combine in analysis and execution.

Rhinoplasty : Plastic ...~~

Rhinoplasty or nose job surgery in Orange County is designed to complement your facial features with a well-proportioned nose. Rhinoplasty surgery will improve your nose size and shape in order to achieve facial balance by altering the following: Your nose width at the upper and middle (called the bridge) and the lower (tip) region.

One of the most common plastic surgery procedures is a Rhinoplasty or nose job. This procedure is best performed to increase or decrease the size of the nose, sculpt and change the shape of the tip, bridge, bones, cartilage or nostril size. Nothing has a greater impact on how a person looks than the size and shape of the nose.
