One of the hardest challenges in anyone's career is transitioning from being a employee responsible solely for one's own work to a manager responsible for others' performance. New managers face the stress of giving up control while needing to drive results through others. Many of the more than 80 million members of the Millennial generation are facing the challenge of managing others without a guide to success specifically tailored to them. The Young Professional's Guide to Managing fills this void with a mix of relevant tips and stories, and a connection to rich online resources. It is an essential guide for all new managers and emerging leaders, providing important insights, including: How to successfully transition to being a manager, from the very first day The 10 skills all young professionals must develop to thrive as STAR managers Managing people of different generations How to hire, develop, and lead teams to incredible results Advanced strategies for young managers, including how to fire underperforming employees and how to squash office politics.

construction by teaching you the ins and outs of managing your construction project. Learn how to get your project off to a solid start. Get financial and legal details in language you can understand. Learn what to consider when selecting a lot and how to deal with suppliers, labor and subcontractors. Gain understanding of building codes and inspections so you can manage with authority, confidence, and efficiency. This extensive guide walks you through each phase of construction including preconstruction, foundations, framing, roofing, plumbing, electrical, masonry, siding, insulation, drywall, trim, painting, cabinetry, countertops, flooring, tile and landscaping. Completely revised and updated, this edition includes a new section on sustainable building as well as the most comprehensive building resources section ever compiled. You'll find schedules, order forms, control logs, contracts and checklists to help keep your project on track.

The digital age has transformed the very nature of marketing. Armed with smartphones, tablets, PCs and smart TVs, consumers are increasingly hanging out on the internet. Cyberspace has changed the way they communicate, and the way they shop and buy. This fluid, decentralized and multidirectional medium is changing the way brands engage with consumers. At the same time, technology and innovation, coupled with the explosion of business data, has fundamentally altered the manner we collect, process, analyse and disseminate market intelligence. The increased volume, variety and velocity of information enables marketers to respond with much greater speed, to changes in the marketplace. Market intelligence is timelier, less expensive, and more accurate and actionable. Anchored in this age of transformations, Marketing Analytics is a practitioner's guide to marketing management in the 21st century. The text devotes considerable attention to the way market analytic techniques and market research processes are being refined and re-engineered. Written by a marketing veteran, it is intended to guide marketers as they craft market strategies, and execute their day to day tasks.

Learn the secrets outdoor industry won't tell you from TV show co-host, outdoor industry consultant, and TV show marketing director Dustin Vaughn Warncke in The Outdoor TV Show's Guide to the Industry. In this groundbreaking book, Warncke covers a wide variety of subjects such as: Prospecting and building relationships with sponsors and earning their favor. Airing your show on multiple traditional TV and Web TV platforms. Mistakes that most TV show teams make in the industry. How to build and audience and keep them coming back to your content. Producing quality content across multiple platforms. And MORE! The Outdoor TV Show's Guide to the Industry is filled with photos, screen shots, and several real world examples of proven techniques to grow your audience and film and produce quality content. This book was written to provide valuable insight for current and aspiring Outdoor TV Show Hosts. The inspiration for writing this book came through a partnership with the Co-Founders of DK Outdoor Adventures Outdoor TV Network and through a long standing relationship with the hosts of Mac and Prowler TV. This book provides valuable industry knowledge that has been gained through first hand experience. In this book, we will cover how to begin the journey of starting an Outdoor TV program on any budget, what separates home videos from actual TV shows and how networking to create benefit results in opportunity. Readers will learn strategies on how to achieve sponsorships, how to earn revenue through their programs, and how to dominate their industry by creating beneficial partnerships that offer massive exposure for their programs and for their sponsors. I hope this book will provide valuable insight into the world of Outdoor Industry Entertainment. While there are many verticals to begin gaining exposure for an outdoor show, there are very few that deliver the exposure level necessary to actually create income and value for the show host to sustain. This book will highlight different avenues to consider when trying to create income through an Outdoor TV program. After purchasing this book, we invite readers to contact us for assistance in beginning their journey to start their very

own Outdoor TV Program.

College does not teach you how to be successful in the working world. There is no course or textbook that explains how to create the fulfilling careers many aspire to. The Millennial generation is 80 million members strong and each year more than 1.5 million enter the working world with little to no idea of how to succeed. While companies spend millions of dollars scrambling to learn more about Millennials and adapt their work cultures to fit this generation, there are remarkably few resources dedicated to teaching young professionals the traits and techniques that will help them succeed in an ever-changing and always-challenging corporate environment. The Young Professional's Guide to the Working World fills this void, offering relevant advice to young professionals seeking to build a strong career foundation. A fellow Millennial, McDaniel draws on personal experiences from the beginning of his own career to illustrate key lessons. The Young Professional's Guide to the Working World provides important insights on the topics essential to success within the first 5–10 years of any corporate career, including:

- How to get promoted faster and drive results not matter what your industry or job title
- The 25 attributes all successful young professionals possess
- How to avoid being a DOPE (someone who Disses Opportunity, Potential & Earnings)
- The keys to becoming a STAR in your career (someone who is Savvy, Tenacious, Adaptive & Resourceful)
- How to create and implement a career blueprint plan, the right way
- Leveraging mentoring to ensure career success

The Media Handbook provides a practical introduction to the advertising media planning and buying process. Emphasizing basic calculations along with the practical realities of offering alternatives and evaluating the plan, this fifth edition reflects the critical changes in how media is planned, bought, and sold by today's industry professionals. Author Helen Katz looks at the larger marketing, advertising, and media objectives, and follows with an exploration of major media categories, including digital media. She provides a comprehensive analysis of planning and buying, with a continued focus on how those tactical elements tie back to the strategic aims of the brand and client. Also available is a Companion Website that expands The Media Handbook's content in an online forum. Here, students and instructors can find tools to enhance course studies such as chapter overviews, PowerPoint slides, and sample questions. With its emphasis on real-world industry practice, The Media Handbook provides an essential introduction to students in advertising, media planning, communication, and marketing. It serves as an indispensable reference for anyone pursuing a career in media planning, buying, and research.
