Coaching and Mentoring for Business seeks to go beyond the vast body of skills-based literature that dominates the study of coaching and mentoring and focus on the contribution that coaching can make to the implementation of human resource strategy and organizational strategy. Grace McCarthy includes an introduction to coaching and mentoring theory, then goes on to look at coaching and mentoring skills, and how they may be applied in relation to individual change, coaching and mentoring for leaders and by leaders, coaching and mentoring for strategy, innovation and organisational change, as well as coaching and mentoring in cross-cultural and virtual contexts. *Coaching and Mentoring for Business* also explores ethical issues in coaching and mentoring before concluding with the evaluation of success in coaching and mentoring and a discussion of emerging issues. "Coaching is the universal language of learning, development, and change." Imagine a workplace without fear, stress, or worry. Instead, you're acknowledged as a valued, contributing team player who doesn't sacrifice priorities, values, happiness, or your life for your job. Sound ludicrous? Consider this is a reality in many thriving organizations. Most leadership books don't apply to sales leadership. Sales leaders are uniquely and indispensably special and need to be coached in a way that's aligned with their role, core competencies, and individuality to achieve their personal goals and company objectives. What if you can successfully coach anyone in 15, 5, or even 60 seconds using one question? *Sales Leadership* makes delivering consistent, high-impact coaching easy. For busy, caring managers, this removes the pressure and misconception that, "Coaching is difficult, doesn't work,

and I don't have time to coach." Since most managers don't know how to coach, they become part of the non-stop, problem-solving legion of frustrated Chief Problem Solvers who habitually do others' work, create dependency, and nourish the seed of mediocrity. Great business leaders shift from doing people's jobs to developing them by learning the language of leadership coaching. In its powerful simplicity, Sales Leadership delivers a chronological path to develop a thriving coaching culture and coaching leaders who develop top performing teams and sales champions. Using Keith's intuitive LEADS Coaching Framework™, the coaching talk tracks for critical conversations, and his Enrollment strategy to create loyal, unified teams, you will inspire immediate change. Now, coaching is easily woven into your daily conversations and rhythm of business so that it becomes a natural, healthy habit. In his award-winning book, Coaching Salespeople Into Sales Champions, Keith was the first Master Certified Coach to share his personal coaching playbook that is now the standard for coaching excellence. Ten years later, and one million miles traveled, he reveals the evolution of sales leadership and coaching mastery through his experiences working with Fortune 500 companies and small businesses worldwide.

Self-directed learning is perhaps the Holy Grail of adult learning and for good reason. Within this seemingly simple phrase lies the battleground for the frustrations of both educator and learner as they work through the difficulties of an unequal and sometimes intense partnership

NLP (Neuro-Linguistic Programming) is believed by many to be a powerful set of tools for facilitating change and enhancing performance. Yet, despite the success stories and proliferation of courses, there is still much skepticism about the validity and effectiveness of NLP. In NLP Coaching Susie Linder-Pelz brings, for the first time, an evidence-based perspective to this coaching methodology. She explains how and where NLP coaching is used, examines its links to established principles and practices, and questions aspects of NLP where the empirical evidence is missing. She reviews recent developments in NLP-based coaching practice and proposes a specific research agenda that will move NLP coaching towards an evidence-based approach. NLP Coaching provides numerous case studies and real-life examples which show how NLP assists personal, professional, team, leadership and organizational development. The book includes contributions from leaders in the field: Andrew Bryant, Michelle Duval, Joseph O'Connor, Paul Tosey and Lisa Wake.
