Financial leverage

is the extent to

which a business
firm employs

borrowed money or

debts. In financial

management, it is a

significant term and

it is a very

important decision

in business. In the

capital structure of

a company, broadly,

there are mainly

Get Free Financial

two types of capital
i.e. Equity and Debt.

Capital Structure
and its 4 Important
Theories - NI, NOI

...

Financial leverage
is the use of
borrowed money
(debt) to finance
the purchase of
assets with the
expectation that the
