Learn the Secret to Success! After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn't struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of workbooks and applications to teach this "Insider's Language" to students around the world.

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

Learn to use Google Earth and add technological richness across the content areas in grades 3-5 with this highly engaging, easy-to-use resource that offers flexibility for authentic 21st century learning. This teacher-friendly book provides step-by-step instructions, lessons, and activities that integrate this technology into social studies, science, mathematics, and English language arts curriculum. All lessons are differentiated for a variety of learning styles and activities are leveled for all learners. In addition, suggestions for flexible groupings and for extension activities are also included. Using Google Earth(tm): Bring the World Into Your Classroom shows teachers how to help their students start their own .kmz folders and fill them with layers of locations that connect their own lives to the curriculum, and to build cross-curricular connections. The included Teacher Resource CD includes templates plus clear, easy-to-follow directions to lead students (and teachers) to see a global view by starting with their own neighborhoods and then moving outward. This resource is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills and supports core concepts of STEM instruction.
