From the first motor cars and classic cars to today's supercars and Formula 1, this is the ultimate book about the history of the car. Packed with stunning photography, and featuring more than 2,000 cars, Car shows you how cars have evolved around the world over the the last 130 years, and their impact on society as objects of curiosity, symbols of status and

luxury, and items of necessity. Extensive catalogues showcase the most important marques and models, organized in categories such as sports cars, convertibles, and city compacts. The book also features virtual photographic tours of some of the most iconic cars from each era such as the Rolls Royce Silver Ghost, Ford Model T, Lamborghini Countach, and Ferrari F40, while cross-sections of key engines explore the driving force behind them. Lavishly illustrated feature spreads detail the stories of the men, machines, and magic that helped create the car world's most famous marques and made brands such as Porsche, Mercedes-Benz, Aston Martin, and Cadillac household names. If you love cars, then you'll love Car. It is simply a must-have title for all car enthusiasts.

Full Size Fords: 1955-1970 is a fascinating retrospective of the cars - the design process, manufacturing, equipment packages, and a thorough listing of options, interior patterns, and paint codes. All models from 1955 to 1970 that brought Ford to dominance in the full-size category are revealed in compelling detail. The introduction of the Galaxie, the development of the Skyliner retractable roof car, the radical redesign of the 1960 models to counter Chevy's new sedan, and much more is covered. Period magazine reviews provide insight and perspective of the driving experience and performance of various full-size models. A fascinating retrospective on Ford Y-Block engines as well as Ford FE engine family and the new for 1970 Lima series engine is also provided. In addition, author David Temple examines Ford's racing exploits, featuring the dual-quad 427 Cammer engine, the Galaxie Grand National race car, and factory and lightweight drag cars.

The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the "need for speed" characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American made cars of model years 1960-1972. Organized by year (and summarizing the market annually), it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions (interior and exterior), paint color choices, changes from the previous year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs.
