Nationalism has made a
major contribution to
global governance
through our system of
nation-states.

Nationalism has been
called an ideology, a
sentiment, a culture or
even a social movement
that pertains to nations.

Both globalization and nationalism has to converge at a point to provide a rich culture for the nation.

Globalization does not necessarily mean westernization.

Globalization is the intermixing of the culture, trade, and relationship between the countries.

globalization,
distinguished from
economic and political
dimensions. But these
three dimensions of
globalization are so
closely connected that
understanding one
dimension requires
consideration of others.
Cultural globalization
has a long history which

consumers. The literature on the globalization of culture also tends to focus on how Western markets for non-Western cultural goods affect patterns of cultural production in the non-Western world. 1 Naturally, this focus on markets tends to draw our theoretical interest toward questions of capitalism.
