Past papers, mark schemes, practice questions by topic and video solutions for AQA, Edexcel, OCR, WJEC and CIE Physics A-Levels

A-Level Physics Papers - PMT

We only publish question papers and mark schemes for some current specifications, in the year following the exam. See what's available when for more information. Some question papers and mark schemes are no longer available after three years, due to copyright restrictions (except for Maths and Science). Teachers can get past papers earlier, from 10 days after the exam, in the secure key materials (SKM) area of our extranet, e-AQA .

AQA | Find past papers and mark schemes

GCSE Physics is part of our science suite, developed with teachers to inspire and challenge students of all abilities and aspirations. The content is presented in an order that tells a coherent and logical story through physics, although teachers are free to teach the content in the order that best suits their students.

AQA GCSE Physics exam revision with questions & model answers for Moments, Levers & Gears. Made by expert teachers.

Practise and prepare for AQA A-level Physics with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book.

This book provides a quick look at the content of Unit P2 of the AQA GCSE Physics course (and the Additional Science course). All the specification points are covered in simple bullet-point form. The text is accompanied by a good selection of full-colour illustrations and photographs. Includes sections on how to revise, maths and How Science Works.

Written by experienced teacher Ian Lovat, this Student Guide for Physics: - Helps you identify what you need to know with a concise summary of the topics examined in the AS and A-level specifications - Consolidates understanding with tips and knowledge check questions - Provides opportunities to improve exam technique with sample answers to exam-style questions - Develops independent learning and research skills - Provides the content for generating individual revision notes

Written by experienced teacher Ian Lovat, this Student Guide for Physics: Written by experienced teacher Pauline Lowrie, this Student Guide for Biology: - Helps students identify what they need to know with a concise summary of the topics examined in the AS and A-level specifications - Consolidates understanding with tips and knowledge check questions - Provides opportunities to improve exam technique with sample answers to exam-style questions - Develops independent learning and research skills - Provides the content for generating individual revision notes

Help your students perfect their understanding and prepare for examinations with accessible science content presented at the right level. An accessible Revision Guide that completely covers the most recent specification with up-to-date revision questions. Written by best-selling authors with substantial examining experience at both Foundation and Higher level for CCEA. - Ensures students' understanding with clear worked examples and content written at the correct level - Provides practice for assessment with lots of Revision Questions - Enables students to improve their grade with helpful exam tips that covers key terminology and guidance on preparing for assessment - Helps students to practise and remember key terms with a full Glossary

With My Revision Notes your students can: - Manage their own revision with step-by-step support from experienced teachers with examining experience. - Apply scientific terms accurately with the help of definitions and key words. - Prepare for practicals with questions based on practical work. - Focus on the key points from each topic - Plan and pace their revision with the revision planner. - Test understanding with end-of-topic questions and answers. - Get exam ready with last minute quick quizzes available on the Hodder Education Website.

This title is being produced in collaboration with the exam board and they will be marketing it to centres who follow AQA Physics B A level. It consists of concise content, exactly tailored to and following the sequence of the specification. This A2 book covers the second half of the course. In October 2000 the AS book, covering the first half of the course, was published. The book provides the student with:- information about the examination papers- advice on how to tackle exam questions effectively, including synoptic questions- definitions and facts which need to be learnt- essential concepts and principles explained carefully and concisely- real-life applications of content, particularly in the context of Information and Communication which is the underlying theme of the specification- lots of practice exam questions. It's the essential guide to this exam.
