Fiction and nonfiction writing emphasize "show ... but because the plaintiff hadn't demonstrated factual predominance — a problem I didn't have. The circuit court even added in a footnote ...

What's the big idea? That's a question students are asked all the time in papers, assessments, and standardized writing tests of every sort. Whether summarizing research sources or synopsizing the plot of a two-hundred page novel, the ability to cut through extraneous details and describe the major themes and highlights of a text is key to success in school and in life. Until now, however, summarization has been difficult to teach and learn, but with Summarizing, Paraphrasing, and Retelling, you'll discover a powerful and practical way to teach these vital skills. Summarizing, Paraphrasing, and Retelling is a slim, do-it-all guide that presents everything you need for teaching kids to separate out trivial items in their reading and then identify and communicate the main ideas and crucial details. Emily Kissner breaks summarization down into smaller, more manageable skills-such as paraphrasing, writing synopses, retelling, and restating the main-idea-illustrating what good summarization looks like and how to adjust your teaching to fit your students' needs. She offers not only methods for individual and group instruction, but also handy, reproducible resources, such as assessment checklists, forms for group work, peer-response sheets, and sample passages for students to practice with. Best of all, Kissner's approach is a student-centered alternative to more traditional skill-and-drill preparations. Supported by research and tested in classrooms, Summarizing, Paraphrasing, and Retelling gives you both big ideas for powerful teaching and important particulars to help you plan instruction and analyze your students' progress. What's the big idea behind teaching summarizing? Read Summarizing, Paraphrasing, and Retelling and find out.

Prudy collects so many things that everyone says she has a problem, but when a crisis convinces her that they are right, she comes up with the perfect solution.

This lovely book illuminates all the possibilities a day offers—the opportunities and chances that won’t ever come again—and also delivers a gentle message of good stewardship of our planet. Newbery Medal winner Cynthia Rylant’s poetic text, alongside Nikki McClure’s stunning, meticulously crafted cut-paper art, makes this book not only timeless but appealing to all ages, from one to one hundred.

Everyone loves chocolate, right? But how many people actually know where chocolate comes from? How it’s made? Or that monkeys do their part to help this delicious sweet exist? This delectable dessert comes from cocoa beans, which grow on cocoa trees in tropical rain forests. But those trees couldn’t survive without the help of a menagerie of rain forest critters: a pollen-sucking midge, an aphid-munching anole lizard, brain-eating coffin fly maggots—they all pitch in to help the cocoa tree survive. A secondary layer of text delves deeper into statements such as "Cocoa flowers can’t bloom without cocoa leaves . . . and maggots," explaining the interdependence of the plants and animals in the tropical rain forests. Two wise-cracking bookworms appear on every page, adding humor and further commentary, making this book accessible to readers of different ages and reading levels. Back matter includes information about cocoa farming and rain forest preservation, as well as an author’s note.

Presents teaching strategies, lesson plans, and reproducible articles that help students comprehend expository text.

"Explains to young readers how to tell the difference between frogs and toads"--Provided by publisher.

Crocodiles and alligators may seem ferocious and scary, but renowned science author Seymour Simon confirms that they´re also endlessly fascinating. Around since the time of dinosaurs, crocodiles and alligators eat without chewing, have three eyelids, and provide good living conditions for other animals. With the use of eighteen stunning full-colour photographs, Simon explores the wonders of these stealthy giants in an exciting up-close and personal way. Ages 8+

Boost your students' reading comprehension and critical-thinking skills using all kinds of high-interest nonfiction sources. From how-to guides and letters to news stories and advertisements, these ready-to-reproduce passages and companion questions will give your students the practice they need to understand the information they see and read every day -- and succeed on standardized tests! Book jacket.

"A giraffe struggles to feel comfortable with his neck"--

Describes the events that led up to the historic battles that began the American Revolution and discusses the consequences for the leaders and soldiers who fought in them.
