Covers all the core areas of human rights law, combining an engaging approach with helpful learning features and plenty of headings to make this an ideal text for those new to the subject. Summaries, definitions, discussion topics and further reading references are integrated throughout the text and presented in a fresh colour design to illuminate legal complexities and highlight essential concepts. Reflective questions are included at the end of each chapter, with suggested key issues for consideration provided on the book's accompanying website. These encourage students to reinforce their learning and foster best practice in developing a reasoned and structured approach to problem solving. An accompanying website provides updates on case law and legislative developments as well as an interactive test bank of multiple choice questions to help students consolidate their knowledge. Fresh two-colour text design makes the book easy to navigate and highlights cross references and learning features. Human Rights Law is written in an engaging and lively manner with an emphasis on explaining the key topics covered on human rights law courses with clarity. No previous knowledge of the subject is assumed but the book provides a thorough introduction to the Human Rights Act 1998 and the way in which the Act gives effect to the European Convention on Human Rights. It looks at the main terms and implications of the convention rights themselves, highlighting some of the more complex and controversial issues of the subject.

A starting point for the study of the English Constitution and comparative constitutional law, *The Law of the Constitution* elucidates the guiding principles of the modern constitution of England: the legislative sovereignty of Parliament, the rule of law, and the binding force of unwritten conventions.
