deals with the subject of quantum psychology, an area Wilson often wrote about. Some consider Quantum Psychology a follow-up to Wilson's earlier volume Prometheus Rising, mainly for the presence of practical exercises to demonstrate its concepts at the end of each chapter (this time intended for groups rather than a lone reader).

Quantum-Neuro-Biology is the science of how Quantum Information and Energy (thought & emotions) interacts with our Neurology (brain & neural pathways) and shapes our Biology (cells & organ tissues). Throughout human history, thoughts, values and behaviours have been coloured by language and the prevailing view of the universe. With the advent of Quantum Mechanics, relativity, non-Euclidean geometries, non-Aristotelian logic and General Semantics, the scientific view of the world has changed dramatically from just a few decades ago. Nonetheless, human thinking is still deeply rooted in the cosmology of the middle ages. This is the book to

change your way of perceiving yourself -- and the universe. Some say it's materialistic, others call it scientific and still others insist it's mystical. It is all of these -- and none. The book for the 21st Century, complete with exercises. Picks up where "Prometheus Rising" left off. Some say it's materialistic, others call it scientific and still others insist it's mystical. It is all of these -- and none.

Prometheus Rising describes the landscape of human evolution and offers the reader an opportunity to become a conscious participant. In an astoundingly useful road map infused with humor and startling insight, Robert Anton Wilson presents the Eight Circuits of the Brain model as an essential guide for the effort to break free of imprinted and programmed behavior, Bob writes, "We are all giants, raised by pygmies, who have learned to walk with a perpetual mental crouch. Unleashing our full stature-our total brain power-is what this book is all about." The Robert Anton Wilson Trust Authorized Hilaritas Press Edition

In this practical book you will find complete information on NLP3, Enneagram and Quantum Thinking. Quantum thinking is the most modern way to see the mind. NLP (Neuro Linguistic Programming) is a technique very diffused today for change and improvement of communication skills. NLP 3 is a further development of NLP toward quantum thinking, called NLP 3. NLP 3 is based on many experiments and also on integration of not verbal technology and powerful Enneagram concepts. Each technique

Four works together are included in this book: BOOK 1: NLP 3 & QUANTUM FOR OUR LIFE BOOK 2: 18 LESSONS ON NLP3, ENNEAGRAM AND QUANTUM TOOLS FOR CREATING RAPPORT BOOK 3: KEYS AND SECRETS OF NON VERBAL COMMUNICATION AS DEVELOPED BY DR. PARET WITH APPENDIX: NON VERBAL HYPNOSIS AND HYPNOTHERAPY BOOK 4: QUANTUM CREATIVITY AND QUANTUM SOFTWARE FOR YOUR BRAIN

This, for my money, is the most spectacular non-fiction work that Wilson ever penned, breathtakingly adventurous in both its content and its strikingly experimental form. Uncertain and demonstrably uncaring whether it's a piece of literary criticism, metaphysical discussion or anthology of diverse esoteric writings, this remarkable compendium is best seen, in the spirit of its title, as a glorious accidental dance of meaning, modernism and mythology. - Alan Moore, from his introduction to Coincidence - The Robert Anton Wilson Trust Authorized Hilaritas Press Edition

Here are images of our culture's absurdities, injustices, violence and desires, shot at you in a machine gun like assault on your senses and intellect. A hilarious, chilling and irrevocably mind-altering, - a left brain/right-brain challenge...a conscious-raising experience filled with laughter, rage -- and truth.

Is all of history a vast conspiracy? Cosmic joke? Robert Anton Wilson developed the story of the Illuminati, a conspiracy as old as time itself, as a vehicle to amuse and enlighten. His best-selling books, The Illuminati Trilogy and Cosmic Trigger, have delighted readers the world over and made the Illuminati conspiracy the perfect metaphor for our time. In the ILLUMINATI PAPERS, Robert Anton Wilson speaks through characters from his novels and other realities and presents his views on our future way of life. Includes The HEAD Revolution Secrets of Evolution How to Eliminate Stupidity Illuminati Interoffice Memos The Position Papers of Hagbard Celine Economic Liberation The Usual Gang of Lunatics, Mystics, and Characters Clamoring for a New Social Order

Quantum Mind. The Edge Between Physics and Psychology This is the second edition with new preface from the author. In a single volume, Arnold Mindell brings together psychology, physics, math, myth, and shamanism – not only mapping the way for next-generation science but also applying this wisdom to personal growth, group dynamics, social and political processes, and environmental issues. Beginning with a discussion of cultural impacts on

mathematics, he presents esoteric but plausible interpretations of imaginary numbers and the quantum wavefunction. In this context he discusses dreams, psychology, illness, shape-shifting (moving among realities), and the self-reflecting Universe - bringing in not only shamanism but also the Aboriginal, Greek, and Hindu myths and even sacred geometry from the Masonic orders and the Native Americans. The book is enriched by several psychological exercises that enable the reader to subjectively experience mathematics (counting, discounting, squaring, complex conjugating), physics (parallel worlds, time travel), and shamanism (shape-shifting).

The sequel to the cult classic The Illuminatus! Trilogy, this is an epic fantasy that offers a twisted look at our modern-day world--a reality that exists in another dimension of time and space that may be closer than we think.
