Development Working created multiple challenges and safeguarding concerns for social work education and practice, whilst the unparalleled death rate exacerbated pre-existing problems with communicating openly about death and bereavement. Many of these issues were already at the surface of social work practice and education and this book examines how the health crisis has exposed these, whilst acting as a potential catalyst for change. This book acts as a testament to the historical moment whilst providing a forum for drawing together discussion from contemporary educators, practitioners and users of social work services.

This book explains the effects of war and armed conflict on individual children and their family system, and how culturally responsive social work practice should take into account the diversity and heterogeneity of their needs and lived experiences. Unpacking social work practice with children and families affected by war and migration, the volume provides a valuable toolkit for practitioners, educators, researchers, and service-providers that work with war-affected populations around the globe. The contributions suggest that fostering a family approach, allotting careful attention to context and culture, and linking the arts and

WELFARE gives readers a broad understanding about the social work profession and the role it plays in the social welfare system. Part of the Brooks/Cole Empowerment Series, the text is completely up to date and thoroughly integrates the core competencies and recommended practice behaviors outlined in the current Educational Policy and Accreditation Standards (EPAS) set by the Council on Social Work Education (CSWE). With its signature systems/ecological approach to understanding social welfare, the book focuses on specific social welfare areas in which social workers play major roles in policy and practice. It adopts the philosophy that there are many reasons why social
