This is the full unabridged edition in a facsimile reprint, 436 pages. The object of the present book is in the tracing the course secret societies. I shall rely as far as possible on the documents and admissions of their members, on which point I have been able to collect a great deal of fresh data entirely corroborating my former thesis. It should be understood that I do not propose to give a complete history of secret societies, but only of secret societies in their relation to the revolutionary movement. I shall therefore not attempt to describe the theories of occultism nor to enquire into the secrets of Freemasonry, but simply to relate the history of these systems in order to show the manner in which they have been utilized for a subversive purpose. If I then fail to convince the incredulous that secret forces of revolution exist, it will not be for want of evidence. About the AuthorNesta Helen Webster (24 August 1876 - 16 May 1960) was a controversial historian, occultist, and author who revived conspiracy theories about the Illuminati. She argued that the secret society's members were occultists, plotting communist world domination, using the idea of a Jewish cabal, the Masons and Jesuits as a smokescreen. According to her , their international subversion included the French Revolution, 1848 Revolution, the First World War, the Bolshevik Revolution of 1917. In 1920, Webster was one of the contributing authors who wrote the The Jewish Peril, a series of articles in the London Morning Post, centered on the Protocols of the Elders of Zion. These articles were subsequently compiled and published in the same year, in book form under the title of the The Cause of World Unrest. She was cited respectfully by Winston Churchill, "This movement among the Jews ... as Mrs. Webster, has so ably shown, [played] a definitely recognizable part in the tragedy of the French Revolution" Webster claimed that the authenticity of the Protocols of the Elders of Zion was an open question. Her position on that, in 1924, "Contrary to the assertions of certain writers, I never affirmed my belief in the authenticity of the Protocols, but have always treated it as an entirely open question." She also believed she was a countess in a previous life, who was guillotined by French revolutionaries. At one time she was a member of the British Union of Fascists.

This is the classic history of the African peoples in Africa and the New World, a repudiation of the absurd belief, widely held in the post-Civil War period, that Africans had no civilization but the one foisted upon them by their slave-trading captors.Writing for a popular audience in 1915, DuBois, one of America's greatest writers, lays out in easy-to-read, nonacademic prose the striking and illustrious story of the complex history and varied cultures of Africa. He explores everything from the art and industry of the peoples of the continent to the dramatic impact the slave trade had both in Africa and on her descendants in the Western Hemisphere.Boldly proud and beautifully written, this essential work will delight readers of American and African history as well as students of great American literature.American writer, civil rights activist, and scholar WILLIAM EDWARD BURGHARDT DU BOIS (1868-1963) was the first black man to receive a PhD from Harvard University. A co-founder of the NAACP, he wrote a number of important books, including Black Folk, Then and Now (1899) and The Negro (1915).

In seventeenth century Italy, overcrowding, violent political uprising, and plague led an astonishing number of abandoned and orphaned children to overwhelm the cities. Out of the piety of private citizens and the apathy of local governments, the system of conservatori was created to house, nurture, and train these fanciulli vaganti (roaming children) to become hatters, shoemakers, tailors, goldsmiths, cabinet makers, and musicians - a range of practical trades that might sustain them and enable them to contribute to society. Conservatori were founded across Italy, from Venice and Florence to Parma and Naples, many specializing in a particular trade. Four music conservatori in Naples gained particular renown for their exceptional training of musicians, both performers and composers, all boys. By the eighteenth century, the graduates of the Naples conservatories began to spread across Europe, with some 600 boys formerly in residence beginning to dominate the European musical world. Other conservatories in the country - including the Paris Conservatory - began to imitate the principles of the Naples' conservatory's training, known as the partimento tradition. The daily lessons and exercises associated with this tradition were largely lost-until author Robert Gjerdingen discovered evidence of them in the archives of conservatories across Italy and the rest of Europe. Compellingly narrated and richly illustrated, Child Composers in the Old Conservatory follows the story of these boys as they undergo rigorous training with the conservatory's maestri and eventually become maestri themselves, then moves forward in time to see the influence of partimenti in the training of such composers as Claude Debussy and Colette Boyer. Advocating for the revival of partimenti in modern music education, the book explores the tremendous potential of this tradition to enable natural musical fluency for students of all ages learning the craft today.
